Editor-in-Chief/Rédacteur en chef ..... Dr. D.J. Addison
Associate editor/Rédacteur associée ..... Mr. J.B. Zenchuk
Editorial board/Bureau de rédaction ..... Drs. J.-L. Anctil, I.S. Begg, J.R. Brunette, I.A. Chisholm, P.L. Davis, J.R. Gonder, R.P. LeBlanc, B.C. Leonard, J.F. Morgan, R.A. Morgan, R. Pager, R.J. Schneider, J.S. Speakman
Translation editor/Directeur de la traduction ..... Dr. R. Gagnon
Book review editor/Directeur de la critique de livres ..... Dr. B.J. MacInnis

Subjects

acoustic nerve disease:
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
Actinobacillus actinomycetemcomitans:
Endogenous endophthalmitis caused by *Actinobacillus actinomycetemcomitans*, Ishak MA et al, 284–286
actinobacillus infection:
Endogenous endophthalmitis caused by *Actinobacillus actinomycetemcomitans*, Ishak MA et al, 284–286
amaurosis fugax:
The ocular ischemic syndrome, Gonder JR, 1 [E]
amblyopia:
Revlens: a new, soft acrylic rubber extended-wear contact lens, Carruthers JDA et al, 84–87
anterior chamber "crowding":
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133
aphakia:
Early anterior segment complications after silicone oil injection, Pang MP et al, 271–275
Revlens: a new, soft acrylic rubber extended-wear contact lens, Carruthers JDA et al, 84–87
autosomal dominant inheritance:
Corneal involvement in autosomal dominant coloboma/microphthalmos, Pearce WG, 291–294
aviation:
Surgical correction for pilots, Liddy BSL, 157 [C]

b-wave:
A composite nature for the photopic b-wave of the human electroretinogram as evidenced by the use of the 60 Hz notch filter, Lachapelle P et al, 19–22
basement membrane dystrophy:
Recurrent corneal erosion, microcystic epithelial dystrophy, map configurations and fingerprint lines in the cornea, Ghosh M et al, 246–252
biochemistry:
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83
blepharospasm:
The orbicularis stripping operation for intractable blepharospasm: surgical results in eighteen patients, Hurwitz JJ et al, 167–169
blind sports:
Life beyond 20/200, Douglas GR, 77–78 [E]
branch retinal artery obstruction:
An unusual presentation of branch retinal artery obstruction in association with ocular neovascularization, Brown GC et al, 103–106

capsulotomy
A new contact lens for Nd:YAG laser capsulotomy, Peyman GA et al, 269–270
carotid artery diseases:
The ocular ischemic syndrome, Gonder JR, 1 [E]
caruncle:
Oncocytoma of the lacrimal caruncle, Heathcote JG et al, 178–183
cataract:
Dyschromatopsia following cataract surgery, Jordan DR et al, 14
Early anterior segment complications after silicone oil injection, Pang MP et al, 271–275
Lens-induced inflammations, Khalil MK et al, 96–102
The ocular ischemic syndrome, Gonder JR, 1 [E]
cell markers:
Lymphoma simulating uveitis (masquerade syndrome), Corriveau C et al, 144–149
cerebellar hemangioblastoma:
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276–283
cerebellopontine angle:
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
check ligaments:
Check ligaments: surgical effects in infantile esotropia, Noel LP et al, 7–9

choroidal detachment:
Choroidal and retinal detachment following argon laser iridotomy, Corriveau LA et al, 107–108
coloboma/microphthalmos:
Corneal involvement in autosomal dominant coloboma/microphthalmos, Pearce WG, 291–294
computed tomography:
The Tolosa-Hunt syndrome: computed tomographic changes and reversal after steroid therapy, Neigel JM et al, 287–290
conjunctiva:
Central corneal dermoid: a clinicopathologic correlation and review of the literature, Shields JA et al, 23–26
conjunctivitis:
Giant papillary conjunctivitis from an exposed prolene suture, Skrypuch WO et al, 189–192
Sheep botfly: Ophthalmomyiasis externa, Harvey JT, 92–95
contact lenses:
A new contact lens for Nd:YAG laser capsulotomy, Peyman GA et al, 269–270
Corneal vascularization, Liston AJ, 30 [C]
Revlens: a new, soft acrylic rubber extended-wear contact lens, Carruthers JDA et al, 84–87
The bells toll, Morgan JF, 211–212 [E]
cornea:
Central corneal dermoid: a clinicopathologic correlation and review of the literature, Shields JA et al, 23–26
Corneal involvement in autosomal dominant coloboma/microphthalmos, Pearce WG, 291–294
Corneal vascularization, Liston AJ, 30 [C]
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
Recurrent corneal erosion, microcystic epithelial dystrophy, map configurations and fingerprint lines in the cornea, Ghosh M et al, 246–252
cryotherapy:
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276–283
cytotoxicity:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166

dermoid:
Central corneal dermoid: a clinicopathologic correlation and review of the literature, Shields JA et al, 23–26
diabetes mellitus:
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
diagnosis:
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133
diplopia:
Superior oblique myokymia: when treatment is necessary, Staudenmaier C, 236–241
dyschromatopsia:
Dyschromatopsia following cataract surgery, Jordan DR et al, 14

electroretinography:
A composite nature for the photopic b-wave of the human electroretinogram as evidenced by the use of the 60 Hz notch filter, Lachapelle P et al, 19–22
Electroretinographic recovery from controlled total ischemia, Brunette JR et al, 13–18
endophthalmitis:
Endogenous endophthalmitis caused by *Actinobacillus actinomycetemcomitans*, Ishak MA et al, 284–286
Lens-induced inflammations, Khalil MK et al, 96–102
erythropsia:
Dyschromatopsia following cataract surgery, Jordan DR et al, 14
esotropia:
Check ligaments: surgical effects in infantile esotropia, Noel LP et al, 7–9
V-pattern: Four-muscle surgery for infantile esotropia with V-pattern, Kraft SP et al, 125–129
extraocular muscles:
Traumatic disinsertion of the superior rectus, Polomeno RC et al, 184–188
eye bank:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
eye injuries:
Traumatic disinsertion of the superior rectus, Polomeno RC et al, 184–188

facial nerve:
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
facial paralysis:
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
fingerprint dystrophy:
Recurrent corneal erosion, microcystic epithelial dystrophy, map configurations and fingerprint lines in the cornea, Ghosh M et al, 246–252
four-muscle surgery:
Four-muscle surgery for infantile esotropia with V-pattern, Kraft SP et al, 125–129

glaucoma:
Choroidal and retinal detachment following argon laser iridotomy, Corriveau LA et al, 107–108
Lens-induced inflammations, Khalil MK et al, 96–102
Pupil cycle time in primary closed-angle glaucoma, Clark CV et al, 88–91
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133
The ocular ischemic syndrome, Gonder JR, 1 [E]
glial fibrillary acid protein:
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83

hypoxia:
The bells toll, Morgan JF, 211–212 [E]

imaging:
Magnetic resonance imaging, Nicolle DA et al, 3–6
immunoglobulins:
Signet-ring cell lymphoma in the orbit: a case report and review, Dolman PJ et al, 242–245
immunohistochemistry:
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83
in vitro:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
in vivo:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
infection:
Endogenous endophthalmitis caused by *Actinobacillus actinomycetemcomitans*, Ishak MA et al, 284–286
inflammation:
Lens-induced inflammations, Khalil MK et al, 96–102

interphotoreceptor retinoid-binding protein:
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83
iridotomy:
Choroidal and retinal detachment following argon laser iridotomy, Corriveau LA et al, 107–108
iritis:
Early anterior segment complications after silicone oil injection, Pang MP et al, 271–275
irrigation-aspiration:
A new variable suction system with finger-tip control, Peyman GA et al, 225–226

keratitis:
Herpes simplex keratitis: a clinico-pathologic case report, Ghosh M et al, 175–177
Ocular complications following excision of cerebellopontine angle tumours, Rosenstock TG et al, 134–139
keratocytes:
Herpes simplex keratitis: a clinico-pathologic case report, Ghosh M et al, 175–177
keratopathy:
Early anterior segment complications after silicone oil injection, Pang MP et al, 271–275
keratoplasty:
Central corneal dermoid: a clinicopathologic correlation and review of the literature, Shields JA et al, 23–26

lacrimal caruncle:
Oncocytoma of the lacrimal caruncle, Heathcote JG et al, 178–183
LAF:
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133
lasers:
A new contact lens for Nd:YAG laser capsulotomy, Peyman GA et al, 269–270
Choroidal and retinal detachment following argon laser iridotomy, Corriveau LA et al, 107–108
Vitrectomy and endolaser for complications of proliferative diabetic retinopathy, Ramsay RC et al, 170–174
lens:
Lens-induced inflammations, Khalil MK et al, 96–102
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133
lymphoma:
Lymphoma simulating uveitis (masquerade syndrome), Corriveau C et al, 144–149
Signet-ring cell lymphoma in the orbit: a case report and review, Dolman PJ et al, 242–245

magnetic resonance imaging:
Magnetic resonance imaging, Nicolle DA et al, 3–6
methyprylon:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
microcystic disease:
Recurrent corneal erosion, microcystic epithelial dystrophy, map configurations and fingerprint lines in the cornea, Ghosh M et al, 246–252
myokymia:
Superior oblique myokymia: when treatment is necessary, Staudenmaier C, 236–241

neoplasms:
Central corneal dermoid: a clinicopathologic correlation and review of the literature, Shields JA et al, 23–26
neovascularization:
An unusual presentation of branch retinal artery obstruction in association with ocular neovascularization, Brown GC et al, 103–106
The bells toll, Morgan JF, 211–212 [E]
notch filter:
A composite nature for the photopic b-wave of the human electroretinogram as evidenced by the use of the 60 Hz notch filter, Lachapelle P et al, 19–22
nylon:
Giant papillary conjunctivitis from an exposed prolene suture, Skrypuch WO et al, 189–192

ocular ischemic syndrome:
The ocular ischemic syndrome, Gonder JR, 1 [E]
ocular tissues:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
oncocytes:
Oncocytoma of the lacrimal caruncle, Heathcote JG et al, 178–183
oncocytoma:
Oncocytoma of the lacrimal caruncle, Heathcote JG et al, 178–183
ophthalmomyiasis:
Sheep botfly: *Ophthalmomyiasis externa*, Harvey JT, 92–95
ophthalmoplegia:
The Tolosa-Hunt syndrome: computed tomographic changes and reversal after steroid therapy, Neigel JM et al, 287–290
optic chiasm:
Nerve fibre bundle visual field defects and intracranial mass lesions, Hupp SL et al, 231–235
optic neuropathy:
Nerve fibre bundle visual field defects and intracranial mass lesions, Hupp SL et al, 231–235
Pupil cycle time in primary closed-angle glaucoma, Clark CV et al, 88–91
orbicularis stripping:
The orbicularis stripping operation for intractable blepharospasm: surgical results in eighteen patients, Hurwitz JJ et al, 167–169
orbit:
Signet-ring cell lymphoma in the orbit: a case report and review, Dolman PJ et al, 242–245
oscillatory potentials:
A composite nature for the photopic b-wave of the human electroretinogram as evidenced by the use of the 60 Hz notch filter, Lachapelle P et al, 19–22
oscillopsia:
Superior oblique myokymia: when treatment is necessary, Staudenmaier C, 236–241

phakomatosis:
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276–283
pheochromocytoma:
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276–283
photic radiation:
The potential damaging effects of light on the eye (Part I), Jordan DR, 216–224
The potential damaging effects of light on the eye (Part II), Jordan DR, 266–268
phototoxicity
The potential damaging effects of light on the eye (Part I), Jordan DR, 216–224
The potential damaging effects of light on the eye (Part II), Jordan DR, 266–268
prognosis:
The clinical course in primary angle-closure glaucoma: a reassessment, Markowitz SN et al, 130–133

prolene:
Giant papillary conjunctivitis from an exposed prolene suture, Skrypuch WO et al, 189–192
protein:
Ocular distribution of methyprylon after intravenous injection and transfer of the drug to recipient eye via corneal graft, Basu PK et al, 162–166
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83
pupil cycle time:
Pupil cycle time in primary closed-angle glaucoma, Clark CV et al, 88–91
pupillary reflex:
Pupil cycle time in primary closed-angle glaucoma, Clark CV et al, 88–91

radiation:
Lymphoma simulating uveitis (masquerade syndrome), Corriveau C et al, 144–149
recurrent erosion:
Recurrent corneal erosion, microcystic epithelial dystrophy, map configurations and fingerprint lines in the cornea, Ghosh M et al, 246–252
refractve standards:
Surgical correction for pilots, Liddy BSL, 157 [C]
retina:
An unusual presentation of branch retinal artery obstruction in association with ocular neovascularization, Brown GC et al, 103–106
Electroretinographic recovery from controlled total ischemia, Brunette JR et al, 13–18
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83
The ocular ischemic syndrome, Gonder JR, 1 [E]
Vitrectomy and endolaser for complications of proliferative diabetic retinopathy, Ramsay RC et al, 170–174
retinal angioma:
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276-283
retinal detachment:
Choroidal and retinal detachment following argon laser iridotomy, Corriveau LA et al, 107–108
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276-283
retinitis pigmentosa:
Retinitis pigmentosa: immunohistochemical and biochemical studies of the retina, Rodrigues MM et al, 79–83

sheep botfly:
Sheep botfly: *Ophthalmomyiasis externa*, Harvey JT, 92–95
signet-ring cell:
Signet-ring cell lymphoma in the orbit: a case report and review, Dolman PJ et al, 242–245
silicone oil:
Early anterior segment complications after silicone oil injection, Pang MP et al, 271–275
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
sixth nerve palsy:
Supramaximal horizontal rectus surgery in the management of third and sixth nerve palsy, Kattleman B et al, 227–230
steroid therapy:
The Tolosa-Hunt syndrome: computed tomographic changes and reversal after steroid therapy, Neigel JM et al, 287–290
strabismus:
Check ligaments: surgical effects in infantile esotropia, Noel LP et al, 7–9
Four-muscle surgery for infantile esotropia with V-pattern, Kraft SP et al, 125–129
Superior oblique myokymia: when treatment is necessary, Staudenmaier C, 236–241
Supramaximal horizontal rectus surgery in the management of third and sixth nerve palsy, Kattleman B et al, 227–230
Traumatic disinsertion of the superior rectus, Polomeno RC et al, 184–188
strabismus surgery:
Check ligaments: surgical effects in infantile esotropia, Noel LP et al, 7–9
Four-muscle surgery for infantile esotropia with V-pattern, Kraft SP et al, 125–129
Supramaximal horizontal rectus surgery in the management of third and sixth nerve palsy, Kattleman B et al, 227–230
suture reaction:
Giant papillary conjunctivitis from an exposed prolene suture, Skrypuch WO et al, 189–192

third nerve palsy:
Supramaximal horizontal rectus surgery in the management of third and sixth nerve palsy, Kattleman B et al, 227–230
Tolosa-Hunt syndrome:
The Tolosa-Hunt syndrome: computed tomographic changes and reversal after steroid therapy, Neigel JM et al, 287–290

ultraviolet radiation:
The potential damaging effects of light on the eye (Part I), Jordan DR, 216–224
The potential damaging effects of light on the eye (Part II), Jordan DR, 266–268
uveitis:
Lens-induced inflammations, Khalil MK et al, 96–102

vacuum control:
A new variable suction system with finger-tip control, Peyman GA et al, 225–226
vernal catarrh:
Giant papillary conjunctivitis from an exposed prolene suture, Skrypuch WO et al, 189–192
virus particles:
Herpes simplex keratitis: a clinico-pathologic case report, Ghosh M et al, 175–177
virus stain:
Herpes simplex keratitis: a clinico-pathologic case report, Ghosh M et al, 175–177
visual field:
Nerve fibre bundle visual field defects and intracranial mass lesions, Hupp SL et al, 231–235
vitrectomy:
A new variable suction system with finger-tip control, Peyman GA et al, 225–226
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
Retinal angiomatosis: the ocular manifestations of von Hippel-Lindau disease, Ridley M et al, 276–283
Vitrectomy and endolaser for complications of proliferative diabetic retinopathy, Ramsay RC et al, 170–174
vitreoretinopathy:
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
vitreous surgery:
Pars plana vitrectomy and intravitreal silicone oil injection in eyes with rubeosis iridis, deCorral LR et al, 10–12
